

Please **refresh** your browser before viewing the Calendar so that any new dates added will be visible on your computer screen.

Scroll down for more information and for the calendar of classes.

Do not print the calendar for future reference as the calendar is constantly updated with added classes and class removals. It is best to view it online with a refreshed screen for the most recent information on class dates.

Balanced Exposure

Class Calendar & General Information

Note: Class schedule subject to change without notice. Be sure to check back often for current class schedule. Cancelling your class with less than 24 hour notice may result in forfeiture of your tuition.

- Follow this link to schedule your class online: <https://secure.netappointment.com/appman.php?rownumber=46>
- Please use the online appointment scheduler to schedule your class. **If you purchased your class online, enter your voucher number as your user ID.** All other students who have not yet paid should call 847-840-4082 to receive a voucher number first before scheduling their class. ***In the event of low class enrollment, you will be contacted in advance should the class need to be cancelled or rescheduled.***
- ***Important: Please check the Announcements section at www.balancedexposure.com for potential class cancellations prior to driving to class on your scheduled class date.***
- **If the class is filled and you cannot schedule for your preferred date, check back the night before the class. Many times, students cancel at the very last moment which will open up seats. In this case, simply reschedule your class for the date you prefer.**
- **Be sure to charge all of your batteries before coming to class and be sure to bring a memory card and your instruction manuals besides your camera and lenses.** The instruction manuals could be helpful should you need it for reference.
- Please be sure to allow plenty of time to arrive to your class. The Zurich Towers has very tight security in place and the security guards will require you to **show a photo ID** to gain entrance. It may also take some time for the security guard to make a security entrance pass for you. Please keep in mind that other students will be getting their passes too at the same time as you, so please allow enough time for you to find the building, park and gather your entrance pass. ***We highly suggest trying to arrive at least 15 minutes earlier than your class begins to go through this process.***
- On weekdays, you may enter through the **1450** American Lane building directly. Do not mistake this with the 1400 building. On weekends, please ring the door bell to the left of the side entrance door (revolving doors will be locked) to have the security guards ring you in. You must show ID via the security camera. You may park in the parking structure (no charge for this) or in the outdoor parking lots. There are limited parking spaces near the Atrium entrance between the two tower buildings, but most spaces there are for one hour only. Do not park in the one hour spaces as your car can be towed since your class will run much longer than one hour. Balanced Exposure is located in room 1480 on the 14th floor. All classes will begin promptly on time, so ***please do not be late.*** We have a lot of information to cover! **If you are late more than 15 minutes after the class start time, you may be asked to reschedule for another date and will be refused entrance to the class.**
